

BANZ Hearing Protection Ear Protectors

TYPE : BANZ Hearing Protection Baby & Kids

Application: This product is designed to protect children's ears from a range of loud noises.

Requirement: This hearing protector complies with the requirements of the European Directive 89/686/EEC annex II by means of the European Standard EN352-1:2020 "Hearing protectors-Safety Requirements and testing – part 1 : Ear Muff" and US ANSI S3.19/S12.6 Testing

Use:

1. Extend headband to maximum "open" position and place the cups over the ears with the headband passing over the head.
2. Settle the headband in position on the head while adjusting the height of the ear cups until they feel comfortable and the headband rests on the head to support the muffs.
3. The ear cushions should be a snug fit against the head and seal around the ear without gaps.
4. Adjust the headband & ear cups while wearing to ensure a comfortable fit and maintain an effective noise seal.

Attenuation Values : 26db

Weight of the ear muffs: Baby 141g ; Kids 190g

Cleaning: Earmuffs should be wiped with a damp cloth or washed with a mild liquid detergent in warm water (and rinsed) while making sure that the sound-attenuating material inside the ear cushions remains dry.

Disinfection: Disinfect the earmuff every 3 months, according to the use. Any part of the earmuffs that is in contact with the wearer should be disinfected with alcohol or a soft disinfectant wipe.

Storage: Store earmuffs in a safe place or their own BANZ Hard Case, available separately, to ensure that the headband doesn't get bent, misshapen or twisted.

Warnings:

1. This Earmuff is of normal size range complying with EN352-1. It fits the majority of wearers.
2. The earmuff should be regularly checked for serviceability. Put the earmuffs on before exposing to noise, and wear them during the whole noise exposure. Be warned that failure to adhere to these recommendations will cause the protection afforded by the earmuffs to be severely impaired.
3. This product may be adversely affected by certain chemical substances. Further information should be sought from the manufacturer.
4. Earmuffs, and in particular cushions, may deteriorate with use and should be examined at frequent intervals for cracking and deterioration. Replace ear-muffs after 2 to 3 years normal use or sooner if they show any signs of deterioration.
5. The fitting of hygiene covers to the cushions may affect the acoustic performance of earmuffs.
6. Ensure wearer's ears are completely and comfortably covered by the cups to endure sound attenuation. An adult wearing a Baby earmuff will not receive the correct attenuation values.

CE mark was issued by the notified body 0501: CRITT SPORT LOISIRS Z.A. du SANITAL, 21, Rue Albert EINSTEIN, 86100 CHÂTELLERAULT, FRANCE. **For a copy of the EU declaration of conformity Visit : <http://EUDOC.banzworld.com>**
